Subject: RE: VI sampling church

It still went through to my old email.

I will talk with my management about this.

That's good news! That happened fast!

Subject: VI sampling church

Maddie,

Good news, we got the church to give us access to do VI sampling. Could OEPA do the sampling? Or possibly the Ohio Dept of Health? If we did it, I would have to amend the SulTRAC contract because the RI is completed and request additional funding, which I'm not sure I'd get at this point.

Let me know. Shari
